**DETAILED ACTION*****Response to Amendment***

The reply filed on February 12, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The claims as originally presented cite "a method of enabling an auction buyer to submit a bid, the method including the steps of: providing the auction buyer with a form containing information relating to a bid transaction" whereas the amended claims recite "a method of enabling an auction buyer to submit a bid by providing the auction buyer with a printed form containing information relating to a bid transaction". Also as pointed by the Applicants in their response the technology for sensing coded data on a printed form is different from that used to sense data on an electronic form. Clearly the scope and utility of method of the originally claimed invention is different and distinct from the scope and utility of method of the amended claims. See 37 CFR 1.111. The amended claims require substantially different searches from that for the originally claimed invention. The applicant elected the former invention by original presentation. The rejection of the original claims as discussed in the office action stands. (See MPEP 8.21.03) Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
